

# SMARTER CONTROL INFINITE POSSIBILITIES

Leading the New Era of Smart Pump Control  
One System, Countless Applications

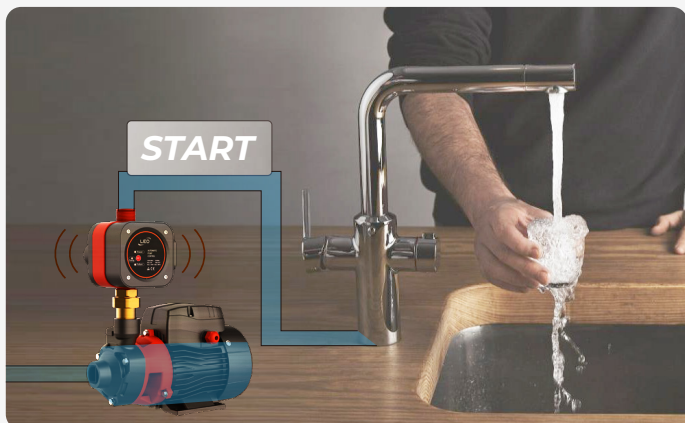

## BASIC FUNCTION

### One-Touch Start/Stop, Effortless Control

No more unplugging.  
Simply power on when needed, and off when done.

## PRODUCT DESCRIPTION PS-05A

### Extends Pump Life

Flow-controlled shutdown keeps pumps running smoothly in low-flow use, maintaining stable water pressure and preventing frequent starts caused by pressure changes.

### Water-less protection

Stop the water pump when running without water to avoid burning.

### Leakage protection

Leakage in the outlet pipeline can be detected and an error can be reported

### Impeller anti-jamming protection

Without water for 24 hours, the water pump will stop running after 10 seconds

## APPLICATION
